

Lift Assist

TANK CAR

Improve operator safety with lift assistance for heavy manway covers.

CUSTOMER BENEFITS

- Available in Stainless Steel or Carbon Steel
- Minimal welding required
- Various designs available for any application or car builder arrangement
- Springs can be customized to your specific needs
- Takes less than 20 lbs of strength at the handle to open the cover

EASY TO LIFT

Ideal for a heavy manway covers, lift assist springs allow a cover to be opened using little power. Anyone can easily handle opening one with just one hand - neither the opening nor closing operation will burden operators.

IMPROVE OPERATOR SAFETY

The lift assist spring does the heavy lifting for you. It also reduces the risk of injury due to an unassisted cover closing on a worker. Allowing operators to safely perform common tasks around the manway.
