

## PD-1 Pad

PD Car Parts Designed for Trinity, North American and Thrall PD Hopper Cars.

Part Number: PD1AP3C23

Front (All fabric)

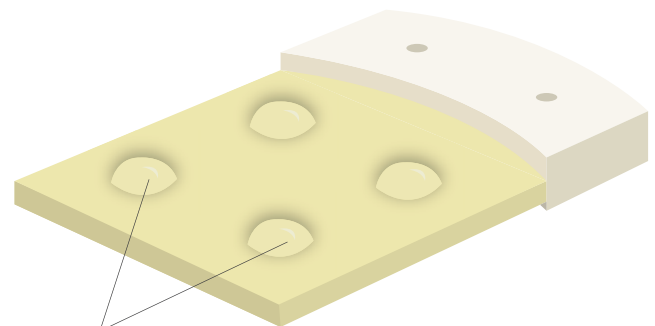

Back

### Key Features

- Dramatically reduces installation time.
- Bolt holes and edges are sealed with FDA rubber to ensure a complete seal and to eliminate leakage through bolt holes during pressurization.
- FDA 3 Poly/Cotton blend fabric resists wear and withstands abrasive cleaning.
- Molded-on gasket design reduces fabric tearing.
- Eliminates aerator/backup plates and gaskets.
- Eliminates four stiffener plates and hardware.
- Eliminates the expense of using two inner gaskets.
- SALCO's pad will fit all 30" round PD pad applications.
- Protected by a plastic sheet that keeps the fabric clean until the pads are applied to the car and the car is ready to ship.

Cross section of Pad

Patented design disperses air evenly to enhance product flow.
