

30 Inch Composite Hatch Cover

HOPPER CAR

30-Inch Composite Hatch Cover
Part Number: PHC3024

Designed to secure dry bulk commodities, the 30-inch round hatch cover features a lightweight material, providing exceptional durability and weather resistance while enhancing efficiency and reducing maintenance.

Cover's gasket provides a secure seal ensuring moisture does not reach the car's commodity.

FEATURES & BENEFITS

- Constructed from tough composite material
- Material offers excellent chemical and impact resistance, even at low temperatures
- Dual hinge design with integrated locking latch tab
- Replaceable black EPDM gasket
- Lightweight and long-lasting material
- One-piece molded design provides strength
- Kit available with hinge base brackets and latch

KEEPS COMMODITIES DRY AND SECURE

Preventing moisture from entering a covered hopper car is essential to preserve the quality and effectiveness of dry bulk commodities, as moisture can cause clumping, spoilage, or chemical reactions that compromise the material's integrity.

Proper sealing also reduces handling and maintenance costs by minimizing the need for cleaning and preventing equipment issues during unloading.
